

I feel that in this negative, self-indulging world, those of us who hurt, need K-Love. They promise what they preach; "Positive and Encouraging". My children, who are young and impressionable, understand the words and are encouraged by them. They sing along joyfully. Nothing is more comforting than to pull up to a traffic light and see a K-Love sticker on the vehicle either in front, or to either side of me. With Road Rage being such a problem in today's communities, this assurance that there are people who prefer to praise God over a song talking about sex and broken hearts is very reassuring.

It's time the FCC started attacking the obscene t.v. shows that portray a couple having sex on prime-time. My children are watching, and have shown signs at the ages of 5yrs, and 6yrs. old, of being more interested than any child should be. I am very careful about what we watch, but when the commercials for these shows are on in between, how can I monitor it? Each break is different, and not expected to be a sex show. Keep the positive radio stations like K-Love, and positive shows like Touched by an Angel on the air. Our kids deserve to have a chance to decide for themselves, WHEN THEY ARE OLD ENOUGH! GOD BLESS THE FCC TO DO THE RIGHT THING AND KEEP GOOD, POSITIVE STATIONS AVAILABLE FOR THOSE PARENTS WHO DO CARE ENOUGH TO TRY TO PROTECT OUR CHILDREN FROM THE WAY THE WORLD HAS BECOME.
